III. DESCRIPTION OF FINDINGS & CONCLUSIONS

A. Physical Description of Facility

This residential camp boarders Little Fish Lake on a 52-acre parcel of woodland in northern Cass county. The site includes seven camper cabins with bathrooms, a craft hut, a main lodge with a full kitchen, dining hall, great room, health care station and sleeping dormitory. The high adventure program areas include a sports field, target range, and waterfront. The facility is located approximately eleven miles northeast of Cassopolis and approximately eleven miles from Borgess Lee Memorial Hospital.

B. Program Description

Camp Matziv provides children between the ages of nine to 18 a camping experience within a natural setting. The program promotes activities that encourage the development of well-rounded individuals that benefit society through study, daily activities, and teamwork. Campers participate in planning their own activities and experiences with the guidance of their adult counselors. Activities include academics, religious education, canoeing, swimming, archery, crafts, music, dance, drama, field sports, and leadership training. Staff are trained in proper supervision, behavior management, child protection, and program development for age groups. Plans for emergencies, rain, and regular camp operations meet licensing rule compliance.

C. Rule/Statutory Violations

The camp Site and Program are in substantial compliance with applicable statutes and administrative rules.

IV. RECOMMENDATION

I recommend issuance of a provisional Site and Program license to this child residential camp.
