The camp operator submitted a request for modification to the capacity terms of the license on 9/16/21. The camp operator requested a modification to increase from 75 to 125 campers.

On 9/16/21, I received an email from the licensee with an attached formal request reading in part the operator had increased the available outside space by removing asphalt and placing 5100 square feet of grass along the side of the building for football, soccer, volleyball, and an increased capacity limit.

On 10/1/21, I conducted an onsite inspection of the campsite. I toured the newly added outside space.

On 11/10/21, The licensee submitted a plan to separate the play area from the roadway by using a barrier.
