AREAS OF NON-COMPLIANCE/CORRECTIVE ACTION PLAN

Areas of non-compliance notated on this report as violations, require a corrective action plan (CAP). Violations requiring a written corrective action plan are noted within the report. If you fail to submit an acceptable corrective action plan, disciplinary action may result. The written corrective action plan is due 15 days from the date this inspection report was sent and must include the following:

- How compliance with each rule will be achieved.
- Identification of who is directly responsible for implementing the corrective action for each violation.
- Specific time frames for each violation as to when the correction will be completed or implemented.
- How continuing compliance will be maintained once compliance is achieved.
- The signature of the responsible designee and a date.

Additional Comments:

The QFI and EHI must be completed before the status of the license remains unchanged. As the QFI "C" rating is over a year old, the camp must contact the QFI for follow up inspections. Upon the receipt of an "A" rating from the QFI, and following the receipt of an "A" rating for the EHI, the full license will remain unchanged. Please send all follow up information/materials/reports to the Licensing Consultant, David Martin, who will file the information with the State. Any questions should be sent to David Martin at: martind32@michigan.gov Any questions should also be directed to the QFI. The camp has fifteen days to schedule the follow up fire inspection with a QFI or no later than September 21, 2026. During the summer visit, the camp director indicated that the EHI had been performed, but the camp was awaiting inspection results. Those results should now be sent to the Licensing Consultant.

RECOMMENDATION

Based on the findings of this inspection:

Contingent upon receipt of an acceptable written Corrective Action Plan (CAP), I recommend the status of the license remains unchanged.
