II. Purpose of Addendum

The department received a request to modify the licensed capacity for both the Children's camp PROGRAM and camp SITE licenses.

III. Methodology

2/8/2023	Contact-Document Received from Licensee Designee, Karen Christopherson.
2/27/2023	Records Review completed

IV. Description of Findings and Conclusions

On 2/8/23, the department received an email from Sherman Lake YMCA licensee designee Karen Christopherson. She requested in writing a modification for increased capacity of the camp PROGRAM and camp SITE license from 160 to 264. Her letter read in part "We are currently licensed for a capacity of 160 and our QFI report notes a capacity of 264. Attached is a complete list of our sleeping quarter beds and wash house facilities on our site."

Ms. Christopherson provided a spreadsheet listing the buildings, types of users, sleeping capacity, types of use, number of beds, number of toilets and urinals, and number of shower stalls.

On 2/27/23, I reviewed the qualified fire safety inspection (QFI) completed by Mike Larabel dated 5/17/23. The Fire Safety Compliance Record was a follow up from the renewal inspection completed on 3/16/22 listing a "C" rating. The renewal inspection found areas of non-compliance and provided a temporary compliance until 4/18/22. The renewal QFI listed a capacity of 264. The follow up inspection on 5/17/22 received an "A" rating with areas of non-compliance corrected. The follow up inspection listed a capacity of 264. Mr. Larabel noted "18 cabins and 4 yurts sleep 264 children and counselors".

I reviewed the building capacity spreadsheet provided by Ms. Christopherson. The spreadsheet listed Cabin #'s 1-18 with a capacity of 12 each. The yurts identified as Yurt #0 - #3 listed capacity of 12 each. The total sleeping capacity for the listed cabins and yurts is 264.

I reviewed the number of toilet facilities listed on the spreadsheet. The spreadsheet listed the total number toilets and urinals as follows: overnight camp/LDP specific toilets" as 39 toilets; SLY urinals as 16; Overnight Camp/LDP specific urinals as 5; SLY total toilets as 83. In addition, the SLY shower stalls as 69 and the overnight camp/LDP specific showers stalls as 24.

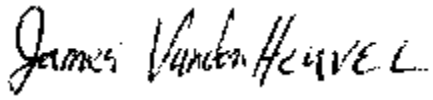

I reviewed the Environmental Health Inspection (EHI) completed by Kalamazoo County Environmental Health Department on 4/28/22. The inspection received an

"A" rating. The inspection notes the camp has four wells and they were code compliant per Type II inspection.

The capacity increase is confirmed by the QFI completed by Mike Larabel on 5/17/23. The available toilet and shower facilities is sufficient for the capacity increase.

V. Recommendation

I recommend modification of the terms of the PROGRAM and SITE license capacity from 160 to 264 persons.
