Capacity:	60
Program Type:	CHILD CAMP - DAY

II. Purpose of Addendum

A request was received by licensee designee, Lauren Wright to modify the capacity of the children's day camp and campsite to increase from 45 to 60 campers.

III. Methodology

03/03/25	Contact-Document Received
04/08/25	Onsite Inspection Completed

IV. Description of Findings and Conclusions

On 3/3/25, the department received a written request from City of Detroit, program manager, Lauren Wright to modify the capacity terms of the children's camp and campsite licenses. Ms. Wright wrote a general request for increasing capacity for multiple facilities and changing age group terms at some of the facilities.

On 4/8/25, I conducted an onsite inspection at the camp facility with Ms. Wright. The building is a Detroit Parks and Recreation Center used for community recreation programs. The facilities include a city owned park and large community center building. Ms. Wright identified the designated spaces for the children's camp indoor shelter as the "computer lab" (723 sq/ft) and the "dance room" multipurpose room (1503 sq/ft). The facility has indoor bathrooms available to support the capacity increase. The outdoor space includes 22 acres park with a pavilion, playground, outdoor track, ball field, basketball courts, and open fields for activities. The camp facilities, including indoor, outdoor, and bathrooms support the capacity of 60 campers. Ms. Wright requested the age terms be modified to allow campers aged 3 years old to 12 years of age.

V. Recommendation

I recommend the capacity terms be modified from 45 campers to 60 campers. Additionally, I recommend the age of campers be modified to 3 years -12 years of age.
