IV. Description of Findings and Conclusions

On 4/20/25, the department received a letter from camp director/board president Meghan Erickson requesting a capacity change from 35 campers to 50 campers due to high demand for the camp experience.

On 5/7/25, I conducted a search of the Bureau Information Tracking System (BITS) for the listed capacity of the camp program license. The capacity was listed as 35 campers. I conducted a search of the campsite license capacity. The campsite is located at Presbytery Point (SR520200157). Presbytery Point's listed campsite capacity is 96. The campsite facility has sufficient space for the increased capacity of the program license.

V. Recommendation

I recommend the increased capacity from 35 campers to 50 campers.
