06/12/2026	Contact-Document Received
06/25/2026	Contact-Face to Face

IV. Description of Findings and Conclusions

On 6/5/2026, the department received an email from executive director, Amy Fanta requesting a modification of the capacity of the children's camp and campsite. Ms. Fanta provided a description of the indoor space with measurements, outdoor space with measurements, and bathrooms. The email requested an increased capacity to 100 campers. The indoor space available included: gym (4000 sq/ft) and fellowship hall (2,750-3,000 sq/ft). The outdoor space available was described as 19,250 sq/ft fenced and current playground.

On 6/12/26, the department received a follow up email from director, Erin Springer, providing description of additional indoor classroom spaces and bathrooms.

I reviewed the Bureau Information Tracking System (BITS) for licensing history and capacity. The search revealed the camp became originally licensed on 4/14/2026. The camp and campsite had a listed capacity of 50 campers. I reviewed the original licensing study report dated 1/28/2026. The report identified the campsite as a community center/church building, three-story center with attached church.

On 6/25/26, I conducted an onsite inspection of the facility. I reviewed the indoor space, outdoor spaces, and bathrooms. The inspection revealed the church is on city water and city sewer. The indoor space includes the gym measuring 3660 sq/ft and the fellowship hall measures 2250 sq/ft. The bathroom's available for camper use: male (5 units with 2 sinks) and female (2 units with 2 sinks). The outdoor space includes playground area and open fields measuring 29,200 sq/ft (.61 acre).

V. Recommendation

I recommend the capacity terms of the Camp and Campsite licenses to be modified from 50 to the approved capacity of 100.
