III. Methodology

06/25/2026	Contact-Document Received
07/16/2026	Contact-Face to Face
10/19/2026	Licensing Record Review

IV. Description of Findings and Conclusions

On 6/25/2026, the department received a letter requesting a capacity modification to the terms of the children's camp license. The letter read "due to the continued popularity of our camp program, we would like to increase from 50 participants to 100". The letter included information about the number of restroom facilities, school building and property size. The details were as follows:

Boys' Restrooms	28 toilets/urinals and 14 sinks
Girls' Restrooms	18 toilets and 12 sinks
School Building Size:	32,200 square feet
Property Size:	5.4 acres

On 7/16/2026, licensing consultant, Kay Foreman conducted an onsite review of the facility and property. Ms. Foreman interviewed director, Dominique Young. The campsite facility is a converted school building into a church facility. Ms. Foreman reviewed the building and found the facilities included the descriptions as noted in the letter submitted by the licensee. Ms. Forman toured the gym (4000 sq.ft), sanctuary (14,400 sq.ft), four classrooms (816 sq.ft per classroom), and fellowship hall (4000 sq.ft). She observed the outdoor environment was a large open grassy area fenced.

On 10/19/2026, I completed a search of the Bureau Information and Tracking System (BITS) database and licensing file. The search revealed the camp program license is currently licensed for 50 campers. The campsite is licensed for 45 campers.

V. Recommendation

I recommend the capacity terms of this license to be modified to the approved capacity of 100 campers.
